ABSTRACT

This survey covers all discipline specialties identified in the Higher Education General Information Survey (HEGIS). It provides a basis for projecting availability of trained manpower in each field of specialization. Essential data are provided to researchers on changing trends in enrollment, not only by field but also by sex, attendence status (full- or part-time), and state. The report is based on data furnished by 1,050 institutional units. Major classifications are: (1) attendance status; (2) enrollment level; (3) discipline specialty; (4) type of control (5) type of institution. (Author/KE)

HIGHLIGHTS

Students Enrolled for Master's and Doctor's Degrees

Enrollments in programs leading to master's and doctor's degrees totaled 965,000 in fall 1974, an increase of 6.3 percent over fall 1973.

Full-time enrollments between 1973 and 1974 increased by 5.1 percent; part-time enrollments, by 7.2 percent.

Enrollments of all women increased by 11.1 percent; that of men, by 3.1 percent.

Women enrolled constituted 41.7 percent of the total in 1974, compared with 39.9 percent in 1973 and 38.0 percent in 1972.

The 597,695 first-year students enrolled for these programs represented an increase of 6.4 percent over 1973. The proportion of these students was 61.9 percent of the total enrollment in 1974, the same as in 1973.

Students Enrolled for First-Professional Degrees in Selected Discipline Specialties

In fall 1974, 222,949 students were enrolled in first-professional degree programs covered by this survey, an increase of 7.0 percent over 1973.

Enrollment of women between 1973 and 1974 increased by 30.9 percent; that of men, by 3.2 percent.

Women enrolled in 1974 were 16.7 percent of the total, compared with 13.7 percent in 1973, 10.7 percent in 1972, and 8.4 percent in 1971.

The 79,438 first-year, first-professional students in 1974 represented an increase of 6.4 percent over 1973.

The proportion of first-year students in these specialties amounted to 35.6 percent of the total first-professional enrollment, compared with 35.8 percent in 1973 and 36.0 percent in 1972.

NATIONAL CENTER FOR EDUCATION STATISTICS

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."—Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

FOREWORD

This report is based on the National Center for Education Statistics' (NCES) 16th annual survey of Students Enrolled for Advanced Degrees (SEAD) in institutions of higher education in the United States. Data were collected as part of the ninth annual Higher Education General Information Survey (HEGIS) in fall 1974.

This publication provides summary data by State, institutional control and level, and discipline division and specialty. It is useful in projecting future availability of highly trained manpower and in identifying changes in the interest of students in graduate programs. In order to reduce publication costs, institutional listings are not being published, but are available on request in a duplicated form only.

The cooperation of the college and university officials who supplied the institutional reports has made possible a 100-percent response rate. The continued efforts and interest of the survey respondents and the State coordinators are deeply appreciated.

Theodore H. Drews, Acting Director
Division of Survey Planning & Analysis

Edith M. Huddleston, Acting Chief
Higher Education Surveys Branch

ACKNOWLEDGMENTS

Preparation of a publication of this nature is the result of months of effort by many people. Special recognition is due the following:

Geneva C. Davis, Statistical Assistant, who maintained the control logs and reviewed many tables for completeness and accuracy.

Linda D. Barry and Mary A. Gilbert who typed, and retyped, the material into a readable manuscript.

DETAIL TABLES–*Continued*

5. Enrollment for advanced degrees, by level of enrollment, sex and attendance status of student, level of degree, and discipline division or specialty: All institutions, aggregate United States, fall 1974 16
6. Enrollment for master's and doctor's degrees, by level of enrollment, sex and attendance status of student, and discipline division and specialty: Aggregate United States, fall 1974 17
7. Enrollment for master's and doctor's degrees, by level of enrollment, sex and attendance status of student, State or other area, and institution: Aggregate United States, fall 1974 22
8. Enrollment for first-professional degrees in selected discipline specialties, by level of enrollment, sex and attendance status of student, State or other area, and institution: Aggregate United States, fall 1974 38
9. Enrollment for advanced degrees, by control and level of institution, level of degree, discipline division and specialty: Aggregate United States, fall 1974 46

SURVEY ORGANIZATION AND METHODOLOGY

PURPOSE OF THE SURVEY

Initiated in 1959 to predict trends in availability of manpower in selected scientific fields, this survey now covers all discipline specialties identified in the Higher Education General Information Survey (HEGIS). The major function of the survey is to provide a basis for projecting availability of trained manpower in each field of specialization. Essential data are provided to researchers on changing trends in enrollment, not only by field but also by sex, attendance status (full or part time), and State. Data by sex permit studies of the changing status of women and provide information relevant to compliance with affirmative action plans.

SURVEY UNIVERSE

Institutions Included

This report is based on data furnished by 1,050 institutional units. (An institutional unit is a separately organized campus or branch, which may be either independent or part of a larger university or a State system.)

The questionnaire "Students Enrolled for Advanced Degrees, Fall 1974"—part of HEGIS—was sent to all universities and other 4-year reporting units in the higher education universe of the National Center for Education Statistics (NCES) for the 1974-75 academic year.[1] (The questionnaire and instructions to respondents are reproduced in the appendix.)

The 1,050 reporting units were, as far as NCES could determine, the only ones enrolling students for advanced degrees in fall 1974. Of these reporting units—

628 had enrollments for master's or doctor's degrees only.

352 had enrollments for both first-professional degrees and master's and doctor's degrees.

70 had enrollments for first-professional degrees only.

Tables showing candidates for master's and doctor's degrees are based on 980 reporting units; for first-professional degrees, on 422 units.

Students Included

This survey included all students enrolled in programs leading to a degree beyond the baccalaureate in the same student categories embraced by the 1973 survey. Part A of the survey questionnaire covered students studying for first-professional degrees in selected discipline specialties; Part B, students enrolled for master's and doctor's degrees. (See the section "Survey Coverage" on page 2 of the survey questionnaire, reproduced in the appendix, for a more detailed account of students to be included.)

Students Excluded

Student categories excluded from the survey were the same as for the surveys in fall 1971, 1972, and 1973, namely, those—

(1) Working for an advanced degree but not formally enrolled for the fall term.

(2) Enrolled in graduate-level curriculums or courses that would not terminate in an advanced degree.

(3) Designated as "special" and "unclassified" but not enrolled for an advanced degree.

(4) Pursuing postdoctoral work.

(5) Enrolled at a branch or an extension center in a foreign country.

---

[1] For a description of the higher education survey universe, see *Fall Enrollment in Higher Education, 1974* (NCES 76-132). The *Education Directory, Higher Education, 1973-74* (DHEW Pub. No. (OE) 74-11404) was the primary source for the list of units included in the survey universe, supplemented by any changes in fall 1974 known to NCES.

MAJOR CLASSIFICATIONS OF DATA

Attendance Status

Students were classified as either full or part time. As in prior surveys, a full-time student was one whose academic load was at least 75 percent of the normal student workload (course work or other required activity) as defined by the institution. All students carrying less than 75 percent of the normal load were classified as part time.

Enrollment Level

All students were classified as being at either of two enrollment levels: first year, those who had completed less than 1 full year of required study for an advanced degree, or its equivalent in part-time study, prior to fall 1974; and beyond the first year, those who had completed 1 or more years of required study for an advanced degree prior to fall 1974.

Discipline Specialty

The classification of discipline specialties follows *A Taxonomy of Instructional Programs in Higher Education.*[2] This was adopted by HEGIS in 1970 and is maintained to provide comparability of data on a continuing basis.

Type of Control

Reporting units were classified as either "public" or "private" according to their classification in the *Education Directory, Higher Education.*[3]

Type of Institution

Selected tables in the report classify reporting units in two categories: "universities" and "other 4-year institutions." Universities are units that give considerable stress to graduate instruction, confer advanced as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other units offering 4 or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year" category.

DATA COLLECTION

A copy of the survey form and accompanying instructions and definitions (see appendix) was addressed to the president of each reporting unit listed in the survey universe, or, in more than one-half of the States, to a State coordinator who supplied the data from information submitted by the reporting units or coordinated the data collection with all or selected reporting units in the State. Followup letters and phone calls were made to State coordinators or institutional officials whose data had not been received within a reasonable period of time after the due date of November 30, 1974.

DATA VERIFICATION

Three methods were utilized to verify the reasonableness of data submitted by each reporting unit:

(1) A computer check for field-by-field comparison with the data submitted for the previous year was made. This procedure checked to determine whether the reported numbers varied by more than a predetermined percentage from the previous year's report. The acceptable variance was based on the order of magnitude of the data-field size: the greater the number of students, the lower the percentage of variance permitted.

(2) Survey forms containing data items identified by the computer check as out-of-range were examined visually by survey personnel to determine whether footnotes, explanatory notes, or readily recognizable human errors accounted for the differences. Where necessary, catalogs of the reporting units were consulted for institutional offerings.

(3) Finally, the remaining problems were resolved by correspondence or telephone contact with State coordinators and institutional representatives.

---

[2] U.S. Department of Health, Education, and Welfare. Office of Education, National Center for Education Statistics. By Robert A. Huff and Marjorie O. Chandler, OE-50064-70. Washington: U.S. Government Printing Office, 1970.

[3] See footnote 1 on p. 1.

Internal checks for consistency included the checking of accumulated totals against subtotals obtained from appropriate subsets of the data.

The survey instructions requested institutions to classify enrollments for advanced degrees according to major field of study and to do so as specifically as the list of specialties in the broad discipline divisions permitted. For example, a student of educational psychology specializing in teaching the mentally retarded should have been reported under "Education of the mentally retarded" (code 0810), rather than under the somewhat broader category of "Educational psychology" (code 0822) or the broadest available category, "Education, general" (code 0801). In practice, however, institutions can report data only to the level of detail provided in their individual recordkeeping systems. For some individual institutional programs, therefore, readers may observe differences between the categorizations with which they are familiar and those shown in the institutional listings.

CURRENT DATA AND TRENDS

ENROLLMENTS FOR MASTER'S AND DOCTOR'S DEGREES

Enrollments for master's and doctor's degrees for all levels combined (first-year students and students beyond the first year) increased by 6.3 percent from 1973 to 1974; by 15.4 percent from 1971 to 1974. The number of reporting units enrolling candidates for master's and doctor's degrees increased from 892 in 1971 to 980 in 1974.

From table A it is clear that the increases in enrollments for master's and doctor's degrees have been most rapid for women and for part-time students. Between 1971 and 1974, the percentage increase in total women was more than five times that of men. The rate increase of total part-time students was more than twice that of full-time students. In 1971 women constituted 36.4 percent of total enrollment for master's and doctor's degrees; in 1974, 41.7 percent. In 1971 part-time enrollments made up 53.5 percent of the total enrollment for these degrees; this had increased to 56.5 percent by 1974.

A similar pattern was true between 1973 and 1974. The percentage of total enrollment of women and part-time students increased during the 1 year more rapidly than the total enrollment of men and full-time students. Enrollments of men increased by 3.1 percent in 1974 over 1973; enrollments of women, by 11.1 percent. Between 1973 and 1974, full-time enrollments increased by 5.1 percent, compared with 7.2-percent increase in part-time enrollments.

First-year enrollments for master's and doctor's degrees increased by 6.4 percent between 1973 and 1974, and by 13.2 percent between 1971 and 1974, as shown in table B. The patterns of increase were different from those for total enrollment. Enrollments for first-year, full-time students increased by 6.7 percent in 1974 over 1973, which was slightly higher than the 6.2-percent increase of first-year, part-time students in the same period. Women enrolled in first-year programs increased by 9.5 percent between 1973 and 1974, while men enrolled in first-year programs increased by 3.9 percent in the same period.

During the period 1971 to 1974, enrollments of women in first-year programs increased 26.5 percent compared with a 3.9-percent increase for men. In this same 3-year period, there was a 9.7-percent increase of first-year full-time students and a 15.6-percent increase of first-year part-time students enrolled.

In 1971, women accounted for 41.0 percent of the total first-year enrollments; by 1974 they accounted for 45.8 percent. In 1971, part-time enrollments made up 59.4 percent of these first-year enrollments; this had increased to 60.7 percent by 1974.

ENROLLMENTS FOR FIRST-PROFESSIONAL DEGREES

In fall 1974, 222,949 students were enrolled in first-professional degree programs at all levels of study in the selected fields covered by this survey. This was an increase of 7.0 percent over 1973 and 16.9 percent over 1971.

An examination of table C shows a significant increase in enrollment of women, both full and part time. Between 1973 and 1974, full-time enrollments of women increased by 31.6 percent; part-time enrollments of women, by 23.6 percent. In contrast, full-time enrollments of men increased by 3.8 percent, while part-time enrollments of men decreased by 4.4 percent in the same period.

Between 1971 and 1974, enrollments of men increased by 6.2 percent, compared to the enrollment increase of women, by 133.3 percent. While full-time enrollments of men increased by 8.2 percent between 1971 and 1974, full-time enrollments of women increased by 138.9 percent. Part-time enrollments of men decreased by 14.1 percent, while part-time enrollments of women increased by 85.7 percent in the same period.

First-year enrollments for first-professional degrees in the selected discipline specialties increased by 6.4 percent over 1973; by 13.6 percent over 1971. The patterns of change for first-year students are similar to those for all students. While enrollments of women increased by 24.4 percent over 1973, enrollments of men increased by 2.8 percent. First-year enrollments of women increased by 117.7 percent over 1971; first-year enrollments of men increased by 1.5 percent.

Between 1973 and 1974, full-time first-year enrollments of men increased by 3.6 percent, compared with the 25.0-percent increase for women. Part-time enrollments of men decreased by 6.6 percent over this period, while that of women increased by 19.3 percent.

Between 1971 and 1974, first-year full-time enrollments of men increased by 5.1 percent, compared with a 124.5-percent increase for women. Part-time enrollments of men in their first year decreased by 29.2 percent between 1971 and 1974, while part-time enrollments of women increased by 68.5 percent.

PRESENTATION AND COMPARABILITY OF THE DATA

TABLES

This report contains 9 tables, all directly comparable to the tables in the 1973 report.

Table 1 gives a summary of students enrolled for master's and doctor's degrees by control and level of institution.

Table 2 provides similar data for students enrolled for first-professional degrees in selected discipline specialties.

Table 3 shows counts, by State, of students enrolled for master's and doctor's degrees. Table 4 provides parallel data for students enrolled for first-professional degrees in the eight specialties.

Table 5 presents counts by discipline for all advanced degrees.

Table 6 shows additional detail on enrollments for master's and doctor's degrees in individual discipline specialties within the broad divisions reported in table 5.

Table 7 provides a count of enrollments for master's and doctor's degrees by institution, while table 8 provides similar data for students enrolled for first-professional degrees.

Each of the foregoing eight tables has counts by level of study, sex of students, and attendance status.

Table 9 presents enrollments for advanced degrees at the master's and doctor's levels, as well as the first-professional level, by discipline division and specialty and by control and level of institution, for universities and other 4-year institutions.

In addition to the tables, the facsimile form in the appendix provides data for each cell reflecting totals for the aggregate United States. These data are summarized in tables 5 and 6.

Users of this report should be aware that there is a split of several professions between those with enrollments for first-professional degrees and those with enrollments for master's and doctor's degrees. This occurs in the discipline specialties of optometry, podiatry, law, and the theological professions. First-professional enrollments in these discipline specialties are clearly indicated and reported in part A of the survey form. The reader is cautioned that all *except* first-professional enrollments are included in these discipline specialties when they are shown in tabular presentations that display enrollments for master's and doctor's degrees. Researchers analyzing data from the health professions, as well as law and theology, should examine all appropriate discipline specialties, in tables reporting data on master's and doctor's degrees as well as in tables reporting data on first-professional degrees.

INSTITUTIONAL DATA

Tables showing the number of degrees by discipline specialty and by institution are available only in a Xerox copy form for special studies. The supply is limited and copies are available only on request, on a first-come first-served basis, by writing to:

Curtis O. Baker, Survey Director
Higher Education Surveys Branch
National Center for Education Statistics
Room 2136, 400 Maryland Avenue, SW.,
Washington, D.C. 20202

COMPUTER TAPES

Persons interested in making additional groupings or analyses of the data may secure a computer tape (cost $94.00 or $120.00 depending on density) containing all data used in the prepartion of this report. For further information write to or call:

Robert A. Heintze
Statistical Services Branch
National Center for Education Statistics
Room 3069, 400 Maryland Avenue, SW.
Washington, D.C. 20202
Telephone: Area Code 202-245-8460

COMPARABILITY

In 1971, the *Students Enrolled for Advanced Degrees* series began classifying instructional programs in accordance with *A Taxonomy of Instructional Programs in Higher Education* (OE 50064-70).[4] When comparing data in the reports for 1971 through 1974 with earlier years, the reader should use the translation table in the Taxonomy for earned degrees conferred and adapt this table to the survey of students enrolled for advanced degrees. (This Taxonomy and the translation table were reproduced in the 1971 edition of this publication.) Any comparisons with the earlier years should be made with extreme care, as entirely new categories were added in 1971 and many others reclassified.

In 1972 NCES began aggregating data by a method that groups institutional units by their level regardless of whether they are independent units or branches. This method was first used in the appendix tables in 1972, and first introduced into the main tables in 1973. This means that tables 1, 2, and 9 in this report are comparable to tables 101, 102, and 110, respectively, in the 1972 report. There are no comparable tables in any earlier reports. Tables 3 through 8 in this report are comparable to table 3 through 8, respectively, in the reports for 1971 and 1972.

---

[4] See footnote 2 on p. 2.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

HIGHER EDUCATION GENERAL INFORMATION SURVEY

STUDENTS ENROLLED FOR ADVANCED DEGREES, FALL 1974

PLEASE READ INSTRUCTIONS BEFORE COMPLETING THIS FORM

OMB NO. 51-R0568
APPROVAL EXPIRES: 6/30/75

1. INSTITUTION CODE NUMBER

2. DUE DATE
Not later than November 30, 1974

Items 1, 3, 4, 5, and 6 MUST be completed by all institutions. If applicable, complete items 7 and 8. Submit a separate survey form for each of the campuses or branch campuses of the institution. If it is impossible to provide separate data for any branch campus, and the data for that branch must be included in the parent institution's report, indicate this in item 8 below.

3. NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED BY THIS REPORT *(Include city, State, and ZIP code)*

4. NAME AND TITLE OF RESPONDENT

5. TELEPHONE NUMBER OF RESPONDENT *(Area code, local number and extension)*

6. THE INSTITUTION COVERED BY THIS REPORT IS *(Check only one)*

(a) ☐ A SINGLE-CAMPUS INSTITUTION

(b) ☐ A MAIN CAMPUS *("Parent" institution)* WITH ONE OR MORE BRANCH CAMPUSES AND/OR OTHER CAMPUSES *(Specify in item 8 below)*

(c) ☐ A BRANCH CAMPUS OF A PARENT INSTITUTION *(Write the name of parent institution below)*

(d) ☐ ONE OF THE ADMINISTRATIVELY EQUAL CAMPUSES OF A MULTI-CAMPUS INSTITUTION

7. IF THE INSTITUTION COVERED BY THIS REPORT IS INCLUDED IN AN "INSTITUTIONAL SYSTEM", WRITE THE NAME OF THE SYSTEM BELOW.

8. PARENT INSTITUTIONS *(As checked in item 6b)* SHOULD LIST THE NAMES OF ALL THEIR BRANCH CAMPUSES BELOW. USE THE FIRST COLUMN TO SHOW WHETHER DATA FOR ANY OF THESE UNITS ARE INCLUDED WITH THE DATA FOR THE "PARENT" IN THIS REPORT.

ARE DATA FOR THIS UNIT INCLUDED IN THIS REPORT?	NAME OF BRANCH CAMPUS AND/OR OTHER CAMPUS	ADDRESS *(City, State, and ZIP code)*
☐ YES ☐ NO		
☐ YES ☐ NO		
☐ YES ☐ NO		

DATA FOR AGGREGATE UNITED STATES

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis *(i.e., has a relatively permanent administration)*, which offers an organized program or programs of work of at least 2 years *(as opposed to courses)*, and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

OE FORM 2300-2.5, 3/74 PREVIOUS EDITIONS OF THIS FORM ARE OBSOLETE.

Page 1 of 29 Pages

SURVEY COVERAGE

A. PURPOSE: The purpose of this survey is to ascertain the number of students enrolled this term for advanced degrees, the students' fields of specialization, and their progress toward their degrees.

B. SCOPE OF THE SURVEY: Except for question 1 at the end of the survey form (line 456), this is **NOT** a survey of all students taking graduate study, but of **all students enrolled for degrees beyond the baccalaureate.**

1. Students to be INCLUDED in the report:

   a. INCLUDE IN PART A students enrolled for first-professional degrees in programs which require at least 2 academic years of previous college work for entrance and which require a total of at least 6 academic years of college work for completion. For example, include students enrolled for first-professional degrees in Law (*LL.B. or J.D.*), Medicine (*M.D.*), etc. as specified on the form. Students enrolled for degrees beyond the first-professional in these fields should be reported in Part B.

   b. INCLUDE IN PART B all other students enrolled for master's degrees; for 6-year degrees such as Education Specialist (*Ed.S.*), Civil Engineer (*C.E.*), etc.; and for doctoral degrees (*Ph.D., Ed.D., etc.*).

2. Students to be EXCLUDED from this report:

   a. Students who, although known to be working on degree requirements, are not formally enrolled for study or dissertation this term.

   b. Students enrolled in graduate-level curriculums which lead to increased professional competence, but which do not terminate in an advanced degree. Students in certificate programs for school principals, for example, should be excluded.

   c. "Special" and "unclassified" students taking courses at the graduate or first-professional level, but not enrolled for degrees.

   d. Post-doctoral students.

   e. Students enrolled at a branch or extension center in a foreign country.

C. CLASSIFICATION OF MAJOR FIELDS OF STUDY: Classification of the major fields of study used in this survey has been presented in the following publication:

U.S. Department of Health, Education, and Welfare, Office of Education, National Center for Educational Statistics. ***A Taxonomy of Instructional Programs in Higher Education.*** By Robert A. Huff and Marjorie O. Chandler, OE–50064–70.
Washington: U.S. Government Printing Office, 1970.
Price: $ .45.

D. EXHIBIT ITEMS:

First-time students in fall 1974. Report the number of students (*in each discipline division*) who have completed less than one full year of required graduate study and who enroll for an advanced degree for the first time in fall 1974. This number will be smaller than the total number of students in their first full year of required graduate study, because it is restricted to those in their first year who have not been enrolled for the advanced degree prior to the fall term 1974.

Doctoral candidates who have completed all but dissertation. Report the number of doctoral candidates who, as of the fall of 1974, have completed all course and other requirements for the degree **except** for the presentation and defense of the doctoral dissertation.

NOTE: Listings of data for individual institutions are regularly included in published reports of this survey.

See GENERAL INSTRUCTIONS and also the separate instructions provided for each of Parts A and B.

GENERAL INSTRUCTIONS

1. **Time period.** Report only those students enrolled as of the fall term of the current academic year (1974-75).

2. **Institutional coverage.** A separate report is requested from each branch or member of a system, as well as from each entirely independent institution and each "parent" institution. Please provide the information requested in item 6 on the cover page, which is intended to permit complete identification of the reporting unit. **Do not** include students enrolled by branches of your institution located in foreign countries.

3. **Consultation on problems.** If clarification of the definitions and instructions is needed, please consult the survey director, Mrs. Mary Evans Hooper, National Center for Educational Statistics, U. S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. You may reach Mrs. Hooper by telephone: (202) 245-8392.

4. **Returning forms.** Completed report forms should be addressed: Attention: Room 2164-HEGIS, National Center for Educational Statistics, U.S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

5. **Major changes.** If the number of enrollments you report in any area is significantly larger or smaller than the number you reported last year, it will be most helpful if you will include explanatory notes on the form or on an accompanying sheet of paper. **If students are enrolled in a discipline specialty new to your institution this year, please indicate this by circling the "line number" in column 3.**

6. Please verify your entries and check all the addition before returning the form.

7. SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR PARTS A AND B.

INSTRUCTIONS FOR PART A: STUDENTS ENROLLED FOR FIRST-PROFESSIONAL DEGREES IN SELECTED FIELDS

See also the statement of "Survey Coverage" and the "General Instructions" for the survey.

Part A is restricted to enrollments for the first-professional degree in each of the 8 professions listed there. A first-professional degree is defined herein as one which meets all three of the following criteria: (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are enrollments for first-professional degrees within the 8 professions other than those specifically named in connection with those professions.

For each of the 8 disciplines, degrees other than first-professional are to be reported in Part B. (*See "Survey Coverage, paragraph B.)*

In columns 4-7 report those students who have completed the previous college work (*pre-professional training*) required for admission to the professional school but who, prior to this term, had completed less than two semesters or three quarters of full-time study or the equivalent in part-time study in the professional school. Note that these students are identified by the amount of study completed prior to this term, rather than by the number of semesters or quarters in which they have been enrolled.

In columns 8-11 report students who have completed one or more years of required study. Report in these columns students who, prior to this term, had completed two semesters or three quarters or more of full-time study or the equivalent in part-time study for the professional degree.

Classification of enrollment by attendance status: A **full-time** student is one whose academic load in terms of course work or other activity (*such as a thesis, research, or required teaching*) is at least 75% of the load normally required of such students. Time spent by teaching fellows should be included only if such teaching is performed as a requirement for a degree. Employment which is not a part of the prescribed activity for an advanced degree or time spent on work required because of lack of undergraduate background should not be counted as time spent on academic requirements. A **part-time** student is one who is carrying an academic schedule of less than three-fourths the normal load.

New Fields: Please circle the line number (*column 3*) if you are reporting students enrolled in a discipline specialty new to your institution this year. (*See "General Instructions," paragraph 5.*)

Foreign Students: Please answer the question on foreign students at the end of Part A. Foreign students are defined as all foreign nationals studying at institutions of higher education in the United States, regardless of whether or not they plan to remain in the United States.

Add-Checks: Before submission, please verify that the TOTAL column (*column 12*) is the sum of columns 4-11 for each line entry. In addition, the TOTAL line (*line 14*) should show the sums of all entries in columns 4-12.

INSTRUCTIONS FOR PART B. STUDENTS ENROLLED FOR MASTER'S AND HIGHER DEGREES, FALL 1974

See also the statement of "Survey Coverage" and the "General Instructions" for the survey.

1. TYPES OF ENROLLMENT. Report all students formally enrolled for degrees beyond the baccalaureate, except for those selected first-professional degrees specified in Part A. First-professional enrollments not reportable in Part A should be reported here. Also report in Part B all students formally enrolled in programs for degrees beyond the first-professional level.

2. GROUPING OF DISCIPLINES. The major fields of study to be reported here fall in the following discipline divisions:

0100	Agriculture and Natural Resources
0200	Architecture and Environmental Design
0300	Area Studies
0400	Biological Sciences
0500	Business and Management
0600	Communications
0700	Computer and Information Sciences
0800	Education
0900	Engineering
1000	Fine and Applied Arts
1100	Foreign Languages
1200	Health Professions
1300	Home Economics
1400	Law
1500	Letters
1600	Library Science
1700	Mathematics
1900	Physical Sciences
2000	Psychology
2100	Public Affairs and Services
2200	Social Sciences
2300	Theology
4900	Interdisciplinary Studies

3. SKIPPING INAPPLICABLE DISCIPLINES. Skip those discipline divisions which are inapplicable to the programs of your institution. Many registrars, for example, will skip one or more of the following: 0100; 1200; 2300.

4. CLASSIFICATION OF ENROLLMENT BY MAJOR FIELD OF STUDY.

   (a) **Specific Classification.** Classify enrollments as specifically as the list of specialties in the broad discipline divisions of the report form permits. For example, report enrollment for an advanced degree in an "accounting" curriculum as Accounting (0502), NOT in Business and commerce, general (0501).

   (b) **Majors of Students Preparing to Teach.** The general rule is to classify enrollments according to the major area of specialization. This means, in general, that majors of students preparing to teach an academic subject, such as English, biology, mathematics, or foreign languages, should be reported as appropriate in Letters, Biological Sciences, Mathematics, and Foreign Languages—NOT in Education. On the other hand, majors of students preparing to teach such special subjects as agriculture, art, music, etc. should be reported in Agricultural education (0899-1), Art education (0831), and Music education (0832).

   (c) **Unlisted Fields of Study.** When classifying a specialty which does not seem to fit into the list, the institution has two choices: (1) it can be listed by name under "other" if it represents an unlisted specialty, or (2) it can be placed in a "general" category if it covers several listed specialties.

   (d) **General Majors.** The term "general major" is used to designate diversified curriculums within an area of study. Ordinarily a general major should be reported in one of the general categories of the report form, such as Physical sciences, general (1901); Social sciences, general (2201); Humanities and social sciences (4903), etc. For example, a concentration in History-Government-Economics should be reported in Social sciences, general.

   (e) **Interdisciplinary Studies.** Code 4999 is for reporting fields of study which represent two or more broad discipline divisions; for example, Mass Communications, encompassing segments of psychology, education, business, journalism, social sciences, fine arts, etc., should be reported here. Specify the name of the interdisciplinary study when reporting in 4999.

5. CLASSIFICATION OF ENROLLMENT BY LEVEL OF STUDY.

   (a) Students who have completed less than one full year of required study for an advanced degree: Report in columns 4-7 those students who, prior to this term, had completed less than two semesters or three quarters of full-time graduate study or the equivalent in part-time study. Note that these students are identified by the amount of study completed prior to this term, rather than by the number of semesters or quarters in which they have been enrolled.

(b) Students who have completed one or more years of required study for an advanced degree: Report in columns 8-11 those students who, prior to this term, had completed two semesters or three quarters or more of full-time study or the equivalent in part-time study.

6. CLASSIFICATION OF ENROLLMENT BY ATTENDANCE STATUS. A **full-time** student is one whose academic load in terms of course work or other activity (*such as a thesis, research, or required teaching*) is at least 75% of the load normally required of such students. Time spent by teaching fellows should be included only if such teaching is performed as a requirement for a degree. Employment which is not a part of the prescribed activity for an advanced degree or time spent on work required because of lack of undergraduate background should not be counted as time spent on academic requirements. A **part-time** student is one who is carrying an academic schedule of less than three-fourths the normal load.

7. NEW FIELDS. Please circle the line number (*column 3*) if you are reporting students enrolled in a discipline specialty new to your institution this year. (*See "General Instructions," paragraph 5.*)

8. EXHIBIT ITEMS. In each discipline, please report counts for "first-time students in fall 1974" and "doctoral candidates who have completed all but dissertation." Please see explanation in the section on "Survey Coverage," paragraph D.

9. ADDITIONAL QUESTIONS. Please answer questions 1 and 2 at the end of Part B (lines 456 and 457). Question 1 pertains to graduate students not otherwise included in this survey.
Question 2 asks how many of the students in the grand total for Part B are foreign students. **Foreign students** are defined as all foreign nationals studying at institutions of higher education in the United States, regardless of whether or not they plan to remain in the United States.

10. ADD-CHECKS. Before submission, please verify that the discipline totals add up to the grand total, and that the TOTAL column *(column 12)* is the sum of columns 4–11 for each line entry.

EDUCATION (0800)

NOTE: Students who are prepared to teach an academic subject such as English, biology, mathematics, and foreign languages should be reported as appropriate in Letters, Biological Sciences, Mathematics, and Foreign Languages, and not in Education.

Teaching of English as a foreign language: Report in 1508.
